WP CABLING PROFESSIONAL CAT. 6A STP TOOL-LESS I...

Couplers

ARTICLE CODE WPC-CPR-6ASP

WP CABLING Professional Cat. 6A STP Tool-Less in-line coupler for direct connection of two cables, 22–27 AWG.

The WP CABLING Professional Cat. 6A STP Tool-Less in-line coupler allows two shielded network cables to be connected directly without intermediate RJ45 plugs and without special tools.

It is especially useful for extending an existing cable run, restoring a connection after a damaged or broken cable, or creating a quick in-field splice. Both cables are terminated on the internal IDC blocks following the colour code; once the conductors are positioned, closing the housing completes the termination.

Applications

- Applications section not available in the product description.

Main features

- Category: Cat. 6A
- Shielding: STP
- Performance: up to 500 MHz, 10GBase-T
- Direct connection of two network cables
- Tool-Less IDC termination
- For 22–27 AWG solid or stranded conductors
- Cable diameter: 6–9.5 mm
- Shielded nickel-plated die-cast zinc alloy body
- UL 94V-0 plastic parts
- Compatible with PoE, PoE+ and UPoE
- Operating temperature: -40 °C / +60 °C
- Reusable and re-terminable
