SIMPLEX OS2 G.657.A1 SINGLE-MODE 9/125 ?M FIBER...

Fiber Optic Patch Cables

0,5 m

ARTICLE CODE WPC-FP0-S9SCASCA-005

Simplex OS2 G.657.A1 single-mode 9/125 µm fiber optic patch cord with SC/APC-SC/APC connectors and yellow LSZH jacket. Ideal for FTTH, GPON and fiber optic connections in access networks.

The WP CABLING Simplex OS2 G.657.A1 fiber optic patch cord is designed for connections in FTTH, GPON and fiber optic access infrastructures.

The 9/125 µm G.657.A1 single-mode fiber offers greater bend resistance than traditional single-mode fibers, a useful characteristic in FTTH installations and spaces with reduced bend radii. The yellow LSZH (Low Smoke Zero Halogen) jacket is suitable for use inside telecommunications infrastructures.

Technical information

WPC-FP0-S9SCASCA-005

Technical data

LENGTH	0,5 m
CATEGORY	OS2
CONNECTOR TYPE A	SC/APC Simplex
CONNECTOR TYPE B	SC/APC Simplex
JACKET	LSZH
FIBER TYPE	Singlemode

Applications

- FTTH networks (Fiber To The Home)
- GPON networks
- Optical access networks
- Connections between optical equipment and terminations
- ONT, ONU and Optical Distribution Box

Main features

- Length: 0,5 m
- Category: OS2
- Connector type A: SC/APC Simplex
- Connector type B: SC/APC Simplex
- Jacket: LSZH
- Fiber type: Singlemode
