Duplex OM1 multimode 62.5/125 µm fiber optic patch cord with ST-ST connectors and orange LSZH jacket. I-VH 2G cable with 3.0 mm diameter, ideal for fiber optic connections within network infrastructures and structured cabling systems.

The WP CABLING Duplex OM1 fiber optic patch cord is designed to provide reliable optical connections within data networks, telecommunications infrastructures, and structured cabling systems.

The 62.5/125 µm OM1 multimode fiber is protected by an orange LSZH (Low Smoke Zero Halogen) jacket. The Duplex configuration and ST-ST connectors provide a ready-to-use connection between devices and components in the optical network.
