Network Cabinets

black

ARTICLE CODE WPN-RNA-22606-B

Professional 19" RNA network rack cabinet, 22U 600×600 mm, supplied assembled, with tempered glass front door, load capacity up to 800 kg and 4 depth-adjustable mounting rails.

The professional WP RACK RNA series network rack cabinet is designed for IT, networking, telecommunications and data-room installations requiring strength, flexibility and easy equipment access. This 22U version with a 600×600 mm footprint is supplied assembled for quick installation.

The supporting frame is made from 2 mm steel, with 1.5 mm steel panels, providing high rigidity and a load capacity up to 800 kg. The tempered glass front door with 1.5 mm metal frame opens up to 180° and includes a handle with key lock.

- 4 leveling feet
- Earthing kit included
- 20 sets of screws and cage nuts included
- Weight: 64 kg
- Colour: black RAL 9005
- IP20 protection rating

Front door

The tempered glass front door allows visual inspection of installed equipment without opening the cabinet. Opening up to 180° and the key lock simplify installation and maintenance while helping protect the equipment.

Rear door

The removable rear door simplifies access to cabling and equipment during installation and maintenance. Its locking system helps keep the cabinet interior protected.
