ARTICLE CODE WPC-FP2-5LCST-020

Duplex OM2 multimode 50/125 µm fiber optic patch cord with LC-ST connectors and orange LSZH jacket. I-VH 2G cable with 3.0 mm diameter, ideal for fiber optic connections within network infrastructures and structured cabling systems.

The WP CABLING Duplex OM2 fiber optic patch cord is designed to provide reliable optical connections within data networks, telecommunications infrastructures, and structured cabling systems.

The 50/125 µm OM2 multimode fiber is protected by an orange LSZH (Low Smoke Zero Halogen) jacket. The Duplex configuration and LC-ST connectors provide a ready-to-use connection between devices and components in the optical network.
