ARTICLE CODE WPC-FP4-5STSC-005

Duplex OM4 multimode 50/125 µm fiber optic patch cord with ST-SC connectors and violet LSZH jacket. I-VH 2G cable with 3.0 mm diameter, ideal for fiber optic connections within network infrastructures and structured cabling systems.

The WP CABLING Duplex OM4 fiber optic patch cord is designed to provide reliable optical connections within data networks, telecommunications infrastructures, and structured cabling systems.

The 50/125 µm OM4 multimode fiber is protected by an violet LSZH (Low Smoke Zero Halogen) jacket. The Duplex configuration and ST-SC connectors provide a ready-to-use connection between devices and components in the optical network.
