4-FAN VENTILATION UNIT WITH THERMOSTAT FOR WP R...

Cooling Units

black

ARTICLE CODE WPN-ACS-N100-4

4-fan ventilation unit with thermostat for WP RACK RSB series cabinets 1000 mm deep.

The WP RACK ventilation unit with 4 fans is installed on top of compatible RSB series cabinets with a depth of 1000 mm. It promotes air exchange and heat dissipation inside the rack.

The thermostat automatically activates the fans when the temperature exceeds the set value and limits continuous operation when ventilation is not required. Protective grilles cover the fans; the declared noise level is approximately 45 dB.
