4-POINT SLIDING SHELF FOR 19" RACK CABINETS 600…

Rack Shelves

black

ARTICLE CODE WPN-ASS-141060-B

4-point sliding shelf for 19" rack cabinets 600 mm deep, with 350 mm shelf depth and load capacity up to 45 kg.

The WP RACK sliding shelf is designed to provide a support surface inside standard 19" rack cabinets with a nominal depth of 600 mm. The side rails allow the shelf to slide out, making access to installed equipment easier.

The 4-point mounting and cold-rolled SPCC steel structure provide stable support for equipment and devices suitable for the available dimensions and load. The perforated surface promotes airflow and contributes to heat dissipation. The supply includes 4 sets of mounting screws.
